ABOUT ME

Bubbly and innovative software engineer specializing in front end technologies. Approaches challenges with a creative and design-driven, problem-solving mindset. Brings strong communication skills, a collaborative attitude, contagious positivity, and critical thinking from a background in healthcare.

EDUCATION

2020- 2021 • Flatiron School
Full Stack Web Development, Ruby on Rails, JavaScript, React

2010-2014 • Colorado State University
Bachelors of Science in Health and Exercise Science

TECHNICAL SKILLS

Ruby on Rails, Javascript (ES6/ES2015), React, Styled Components, HTML5, CSS3, SQLite3, PostgreSQL, JSON Web Token (JWT)

TECHNICAL PROJECTS

Portfolio
My personal portfolio website showcasing my work
- Utilized React and Styled Components to build this app
- Implemented EmailJS for the contact form
- Created a clean user interface with responsive design

Pokémon Team Builder
A web app designed for Pokémon trainers to help them build their perfect team
- Utilized React to create this app
- Designed a unique experience for users by applying dynamic styling for each type of Pokémon
- Used the PokéApi to supply data for this app

Props
A web app for plant lovers to advertise and trade their propagated houseplants
- Went beyond course curriculum and learned Python, Django, and Postgres, which were all technologies unfamiliar to me prior to this project
- Expanded on my new knowledge of Django and implemented Django REST Framework Simple jwt for the authentication feature of this app
- Designed the Props logo

EXPERIENCE

2015-2017, 2018-2020   **Boulder Community Health-Cardiac Rehabilitation**
Exercise Physiologist
- Collaborated on a multidisciplinary team of nurses, respiratory therapists, and doctors to create care plans for patients who recently underwent open heart surgery and other cardiac procedures
- Interpreted complex EKG rhythms and used sophisticated equipment and software to capture and record this data

2017-2018   **Walt Disney World Resort**
Disney College Program Internship
- Created memorable vacations for guests while demonstrating critical problem solving and high quality listening when defusing guest situations
- Engaged in courses exploring the history of the Walt Disney Company and its core business values
